

# THE SOUTHWEST ENVIRONMENTAL FINANCE CENTER

AT the University of New Mexico, and the Sac & Fox Nation Maintenance Department, and Office of Environmental Services are pleased to present the following FREE training:

## PROTECTING YOUR DRINKING WATER USING THE MULTIPLE BARRIER APPROACH

This training will demonstrate how water system components can work together to provide protective barriers against waterborne disease. Topics will focus on the elements of a Sanitary Survey including the Source, Treatment and Distribution Barriers. Participants will learn how to perform a Sanitary Survey of a ground water system and apply those skills to their own system/s.

This training includes a field component to be held at the water system facilities operated by the Sac & Fox Nation
